# **Empowering Enterprises Today to Build the Sales Pipelines of Tomorrow**

#### Why should you choose a MentorTech Group list?

MTG has truly created a "first-of-its-kind" Market Intelligence database of Meeting/Event Planner and Trade Show executives. We hand-build and maintain a highly accurate database of the key decision makers you seek.

What is the difference between MTG's market intelligence and other "lists"?

#### Age of list

You need current information – for mailing, for calling and for emailing! People in this industry move around a lot. We complete major updates by calling and re-verifying information <u>every four months</u>. Our lists are current and accurate. We stake our name on it.

#### **Custom-built list**

Many list companies can't even tell you exactly where their information came from. Those lists are often merely combinations of other lists comprised of old data, like someone who signed up for an industry magazine two years ago. What a waste! But rest assured, MTG's database was **built from scratch** by having **personal conversations with each contact every 4 months**. Each contact must qualify to be included in the MTG database.

#### Opt-in

This is a permission-based list. We interview each contact over the telephone and, depending on the type of contact, they know they will be receiving information from a meeting/event planning vendor.

#### **Quality of contacts and job functions**

MTG's Market Intelligence Consultants have done all the digging for you. We identify decision makers through brief phone interviews identifying actual job responsibilities, not just titles. We have the expertise to build out this highly valuable, unique information, ONLY available through MTG.

#### **Accuracy of information**

As far as purchased lists go, it is considered EXCELLENT to have "only" a 20% error rate. And it is not uncommon to have 35% - 40%++ error rates. But MTG lists are different. The information in our database is **highly accurate – period**.

#### Who owns the list?

MTG licenses its database for unlimited use within your company for one year – to use for calling, emailing or direct mail.

### Does the producer of the list have expertise in the meeting/event planning industry?

Mentor Tech Group Market Intelligence Consultants have worked as Meeting Planners in the past – and are in an excellent position to make a "judgment call" that the person with whom they are speaking merits membership in our database. So the question becomes: "Who is better equipped to provide you with meeting/event planner information?"

One way or the other, your company will spend money to find decision makers to talk to. So, why not get it right the first time?

#### Call us today to:

- Save money by calling and emailing the right prospects the first time
- Increase productivity and job satisfaction of those involved in the business development process
- Finally use an accurate list of the decision makers you want to talk to!
