Why should you choose a MentorTech Group list?

MTG has truly created “first-of-its-kind” Market Intelligence for **HR, TALENT MANAGEMENT, AND TRAINING VENDORS**. We specialize in developing highly accurate lists of key decision makers within Corporate HR, Talent Management, and Training.

What is the difference between MTG’s market intelligence and other “lists”?

Age of list

You need current information – for mailing, for calling and for emailing! People in this industry move around a lot. We complete major updates by calling and re-verifying information every four months. Our lists are current and accurate. We stake our name on it.

Custom-built list

Many list companies can’t even tell you exactly where their information came from. Those lists are often merely combinations of other lists comprised of old data, like someone who signed up for an industry magazine two years ago. What a waste! But rest assured, MTG’s database was **built from scratch** by having **personal conversations with each contact every 4 months**.

Opt-in

This is a permission-based list. We interview each contact over the telephone and, depending on the type of contact, they know they will be receiving information from an HR, Talent Management, or Training vendor.

Quality of contacts and job functions

MTG’s Market Intelligence Consultants have done all the digging for you. We identify decision makers through brief phone interviews identifying actual job responsibilities, not just titles. We have the expertise to build out this highly valuable, unique information, **ONLY** available through MTG.

Accuracy of information

As far as purchased lists go, it is considered EXCELLENT to have “only” a 20% error rate. But MTG lists are different. The information in our database is **highly accurate – period**.

Who owns the list?

MTG licenses its database for unlimited use within your company for one year – with additional programs available to receive updated list information on an ongoing basis.

Does the producer of the list have expertise selling to the HR and Training market? We Do.

MTG clients include: IBM Kenexa, Dale Carnegie Training, Harvard Business School, Dartmouth Tuck School of Executive Education, Adobe Systems, Duke Corporate Education, Citrix GoToMeeting, Skillssoft, and The MASIE Center & Learning Consortium.

These clients trust MTG to provide high quality marketing intelligence because **our corporate HR and Training decision maker information is simply second-to-none**.

One way or the other, your company will spend money to find decision-makers to talk to. So, why not get it right the first time?

Call us today to:

- Save money by calling and emailing the right prospects the first time
- Increase productivity and job satisfaction of those involved in the business development process
- Finally use an accurate list with the decision makers you want to talk to!
